RemoteXY librarys download page

Library provide the functionality of RemoteXY for use in Arduino IDE sketches. To install the library in Arduino IDE, you can use one of the following methods:

1. Use the Library Manager. Open the IDE and click to the **Sketch** menu and then **Include Library > Manage Libraries**. Use the search by the keyword **RemoteXY**, find the library and click install.

2. Download ZIP file by link from the table below. Do not unzip the downloaded library, leave it as is. In the Arduino IDE, navigate to **Sketch > Include Library**. At the top of the drop down list, select the option to **Add .ZIP Library**. Navigate to the .zip file's location and open it.

3. Download ZIP file by link from the table below. Expand it and put in the **Library** directory of sketchbook folder. See location of your sketchbook folder at **File > Preferences > Sketchbook location**.

You can refer to detailed instructions to install the library in Arduino IDE by link
